DESIGN-A-RIVET

Can't find what you're looking for? We can supply custom cold-headed rivets and parts from .028" to 1.5" diameter! Simply FAX us your drawing or fill in dimensions on this sheet and FAX it to us. Cold-heading is an economical way to produce fasteners and many parts. Often screw machined parts can be cold-headed at reduced cost and increased strength! We look forward to your inquiry and quoting your requirements.

HEAD STYLE		BODY STYLE		MATERIAL		FINISH		
OVAL	TRUSS	SOLID	TAPPED	STEEL	MONEL	ZINC	PLAIN	CAD
