

PROSET XT2 BLIND RIVET TOOL (76002-0003)

For 1/8", 5/32" & 3/16" Diameter Blind Rivets.

The ProSet XT2 sets new standards for pneumatic rivet tools. Designed specifically to set a wide range of breakstem rivets, this tool delivers 2,000 lbs. of pulling force with an outstanding force-to-weight ratio. The ProSet XT2 has many innovative high performance features, including a "Quick Disconnect" nose housing and jaw case for rapid cleaning and maintenance of the front end without the need for tools, as well as a new integral exhaust valves for fast setting cycles. The robust rubber base is designed to avoid damage and the latest technology lip seals maximise re-priming intervals. Piston bearing rings ensure maximum robustness and tool life.

Capacity: Up to 3/16" in all materials, standard, structural, & closed end blind rivets.
